

Under President Biden, inflation has reached historic highs and the U.S. has been made weaker after his disastrous Afghanistan policy. Sharice Davids has done nothing to stop Biden's reckless agenda and even votes with Joe Biden 100 percent of the time.

The annualized rate of inflation has hit a 40-year high multiple times in the last 8 months:

Amidst Biden's Afghanistan withdrawal effort, America's net favorability fell in the UK, Australia, Brazil, China, Germany, India, Italy, Japan, Mexico, Russia, and Spain:

- **On August 26, 2021, the Morning Consult reported that the “chaos” in Afghanistan took a toll on America's net favorability in seven of the fourteen countries they track.** “The recent chaos in Afghanistan prompted by the Taliban's takeover of Kabul and much of the rest of the country as the United States prepares its final exit has taken a toll on America's reputation in half of the 14 foreign countries that Morning Consult tracks, with one of the steepest drops seen in one of its closest allies... According to surveys conducted Aug. 18-24, America's net favorability rating (the share of adults with a favorable view of the United States minus the share with an unfavorable view) fell 10 percentage points in the United Kingdom since Aug. 8-14 polling – the biggest decline to America's global reputation in every place surveyed except for China.” (Eli Yokley, “How the World Sees America Amid Its Chaotic Withdrawal from Afghanistan,” [Morning Consult](#), 8/26/21)
