- **Lee supports the Green New Deal, which “includes ending fracking.”** “In Congress I will fight for a Green New Deal to transition to a 100% clean and renewable energy economy. This includes ending fracking, which poses a disproportionate threat to communities like ours. The Green New Deal centers frontline and marginalized communities facing the brunt of environmental racism - communities with poisoned water, high rates of asthma, etc - communities like ours.” (“Issues,” [Summer Lee for Congress](#), Accessed 5/2/22)

Replying to @itsmichelec and @JamaalBowmanNY

And also "defund" is reform.  
You can't reform oppressive systems while pouring  
money into them, ESP at the expense of education,  
housing, transportation, environmental justice etc.

It creates a self fulfilling prophesy & cycle. Poverty  
& lack of opportunity begets crime
