In December 2025, Planned Parenthood Issued A Statement Opposing The Removal Of Coverage Of Gender Affirming Care For Minors From Medicaid And CHIP. "Today, Planned Parenthood Action Fund issued the following statement in response to the new Centers for Medicare & Medicaid Services (CMS) proposed rules on health care for transgender youth — a dangerous escalation of the Trump administration's attacks on the transgender community: Statement from Alexis McGill Johnson, president and CEO of Planned Parenthood Action Fund: 'These targeted attacks on trans youth are shameful. Politicians have no business inserting themselves into conversations between doctors and patients and their families, and yet here they are again, standing between young people and life-saving health care from trusted providers. Planned Parenthood health centers across the country are proud to serve patients of all gender identities and expressions. At Planned Parenthood, we believe all people deserve access to the evidence-based health care and education they need to make informed care decisions and live safe, healthy, and fulfilling lives.'" Reproductive Freedom For All Has Advocated For State Resources To Cover Transgender Care For Incarcerated Individuals And Minors. “Attacks on trans youth are not just cruel—they are life-threatening. In recent years, our state has become a testing ground for dangerous and ideologically coordinated assaults on bodily autonomy. From the passage of a six-week abortion ban to the introduction of Senate Bill 185—which prohibits state funding for gender-affirming care for incarcerated transgender individuals—and Senate Bill 36—the so-called “Religious Freedom Restoration Act” that could enable discrimination under the guise of religious liberty—these policies are all part of the same extremist playbook.” (Alicia S., “Reproductive Freedom And Trans Rights: An Inseparable Struggle,” [Reproductive Freedom For All](#), Accessed 9/29/26)
