

Shomari Figures Helped Implement A Policy That Guttled Over 700 Billion Dollars From Medicare, Raised Taxes By One Trillion Dollars, Resulted In Thousands Of Alabama Families Losing Their Health Insurance Plans, And Increased Health Insurance Premiums

During His Tenure As The Domestic Director Of Presidential Personnel In The Obama Administration, Figures Supported The Implementation OF The Affordable Care Act. “He served as a law clerk on the federal court, worked on President Barack Obama’s campaign, and then went on to work in the White House, serving as the Domestic Director of Presidential Personnel. Shomari worked closely with senior leadership at the Departments of Education, Labor, Health and Human Services, Housing and Urban Development, and Justice. Figures supported the implementation of policies and legislation like the Affordable Care Act from the ground up, improving the lives of thousands in Alabama.” (“About Shomari,” [Shomari Figures Congressional Website](#), Accessed 8/20/26)

Obama’s Affordable Care Act Cut \$716 Billion From Medicare. “The Romney campaign has gone on the offense on Medicare, charging that the Affordable Care Act ‘cuts \$716 billion’ from the entitlement program. That \$716 billion figure is one you’ll probably be hearing a lot about during this election cycle. It’s worth understanding where it comes from and what the spending reductions mean for the Medicare program.” (Sarah Kliff, “Romney’s Right: Obamacare Cuts Medicare By \$716 Billion. Here’s How,” [Washington Post](#), 8/14/12)

The Affordable Care Act Increased Taxes By Over \$1 Trillion Over Ten Years. “This week the Congressional Budget Office (CBO) and Joint Committee on Taxation (JCT) updated their estimates of the tax increases embedded in Obamacare, i.e. the Patient Protection and Affordable Care Act. Turns out it’s not so affordable. Over ten years Obamacare represents over a \$1 trillion in new taxes. The chart below, reproduced from the House Committee on Ways and Means, outlines the more than 20 new taxes comprised in the law.” (William McBride, “Obamacare Taxes Now Estimated To Cost \$1 Trillion Over 10 Years,” [Tax Foundation](#), 7/26/12)

In 2013, Thousands Of American Families Lost Their Health Insurance Plans And Saw Pricier New Policies Due To The Affordable Care Act. “President Obama repeatedly assured Americans that after the Affordable Care Act became law, people who liked their health insurance would be able to keep it. But millions of Americans are getting or are about to get cancellation letters for their health insurance under Obamacare, say experts, and the Obama administration has known that for at least three years. Four sources deeply involved in the Affordable Care Act tell NBC News that 50 to 75 percent of the 14 million consumers who buy their insurance individually can expect to receive a ‘cancellation’ letter or the equivalent over the next year because their existing policies don’t meet the standards mandated by the new health care law. One expert predicts that number could reach as high as 80 percent. And all say that many of those forced to buy pricier new policies will experience ‘sticker shock.’” (Lisa Myers and Hannah Rappleye, “Obama Administration Knew Millions Could Not Keep Their Health Insurance,” [NBC News](#), 10/29/13)
